Mr. Satyajit Paul, Assistant Professor, Geography, Gour Mahavidyalaya

Mr. Nani Gopal Kapasia, Assistant Professor, Geography, Malda College

Focal Theme of the Webinar:

Environment Population and Development: Challenges and Opportunities

Environment deterioration is a great challenge against our course of safe life and sustainable socio-ecological development. Often man and environment is conflicting instead of insightful co-habitation. For increasing consumption level, lacks of ecological injustice are the major reasons behind mounting stress on environment. Sometimes lack of suitable resource inventory, appraisal, management also cause for environmental damages. Understanding the vitality of the ecological goods and resources in our society is very essential. Development is needed but that should not be destroying the environment. This truth is needed to be addressed from different angles. Considering these vital issues, the title and subthemes of the webinar is defined.

The main objective of the International Webinar is to explore the changing notions and methods for addressing environmental issues in connection with population and development for the sustainability of the socio-ecological wellbeing.

It is our expectation that valuable deliberation of the resource persons and research scholars will help to streamline the ways of better man environment interaction.

Sub-themes of the Webinar:

1. Geo-hazards in different geographical space
2. Ecological resources and its importance
3. Modern technologies in environment management
4. Impacts of development on environment
5. Air quality modelling and its application
6. Ecosystem health and dynamics
7. Sustainable urban development and mobility
8. Agricultural sustainability and climate change
9. Population dynamics
10. Health and health care utilization
11. Paradigm shift in man-environment relation
12. COVID pandemic and its contemporary impacts on socio-ecology

Invitation to International Webinar

Dear Sir/madam,

I am pleased to inform you that the Department of Geography, Malda Women's College, is going to organize an International Webinar on “Environment Population and Development: Challenges and Opportunities” on October 17-18, 2020. On behalf of the Organizing Committee, I cordially invite all the students, researchers and faculty members from different academic and research institutions to participate and contribute their ideas and knowledge in the International Webinar.

With regards,
Priyanka Das and Bikash Barman
Assistant Professor
